COMMITMENT TO SUSTAINABILITY
ENGAGEMENT FÜR NACHHALTIGKEIT
ENGAGEMENT DURABLE

La sostenibilità guida le nostre scelte produttive e commerciali. Operiamo con responsabilità sociale e ambientale, riducendo gli sprechi, valorizzando le risorse e investendo in processi più efficienti. Nei nostri impianti controlliamo il trattamento dei fumi e dei filtri, il recupero delle acque e lo sviluppo di imballaggi alternativi e riutilizzabili. Molti prodotti offrono lunga durata, ridotta manutenzione e possibilità di riciclo.

Sustainability guides our production and commercial choices. We operate with social and environmental responsibility, reducing waste, making the best use of resources and investing in more efficient processes.

In our facilities, we carefully monitor fume treatment and filtration systems, water recovery and the development of alternative, reusable packaging solutions. Many of our products offer long-lasting performance, reduced maintenance and the possibility of recycling.

Nachhaltigkeit prägt unsere Produktions- und Handelsentscheidungen. Wir handeln mit sozialer und ökologischer Verantwortung, reduzieren Abfälle, nutzen Ressourcen effizient und investieren in leistungsfähigere Prozesse.

In unseren Anlagen pflegen wir sorgfältig die Rauchgasbehandlung und Filtersysteme, die Wasserrückgewinnung sowie die Entwicklung alternativer und wiederverwendbarer Verpackungslösungen. Viele unserer Produkte überzeugen durch lange Lebensdauer, geringen Wartungsbedarf und Recyclingfähigkeit.

La durabilité guide nos choix de production et commerciaux. Nous agissons avec responsabilité sociale et environnementale, en réduisant les déchets, en valorisant les ressources et en investissant dans des processus plus efficaces.

Dans nos installations, nous contrôlons avec attention le traitement des fumées et les systèmes de filtration, la récupération des eaux ainsi que le développement d'emballages alternatifs et réutilisables. Nombre de nos produits offrent une grande durabilité, un entretien réduit et une possibilité de recyclage.

STONE CITY
GRANULATI ZANDOBBIO'S EXPO FOR CREATIVE GARDENS

Visitare **Stone City** significa entrare in un laboratorio a cielo aperto dedicato alla pietra naturale, pensato per architetti, paesaggisti e professionisti alla ricerca di idee per spazi esterni eleganti, resistenti e autentici.

Qui è possibile scoprire da vicino **pavimentazioni, ciottoli e granulati decorativi, sassi naturali, monoliti, muretti, rivestimenti, vasche, piscine e giochi d'acqua**, inseriti in ambientazioni reali e ricche di ispirazione.

Il percorso include **aree tematiche** come Miniera Museo, Teatro Greco, Vasca dei Monoliti 3D, Tre Piscine, Camminata Panoramica e Giochi d'Acqua, per raccontare la pietra naturale in tutte le sue possibilità progettuali.

Visiting **Stone City** means entering an open-air laboratory dedicated to natural stone, designed for architects, landscape designers and professionals looking for ideas for elegant, durable and authentic outdoor spaces.

Here, visitors can discover **pavings, decorative pebbles and gravels, natural stones, monoliths, stone walls, claddings, basins, swimming pools and water features up close**, all set within real-life, inspiring environments.

The route includes **themed areas** such as the Museum Mine, Greek Theatre, 3D Monolith Basin, Three Pools, Panoramic Walkway and Water Features, created to showcase natural stone in all its design possibilities.

Ein Besuch in **Stone City** bedeutet, ein Freiluftlabor zu betreten, das dem Naturstein gewidmet ist und für Architekten, Landschaftsplaner und Fachleute entwickelt wurde, die Ideen für elegante, widerstandsfähige und authentische Außenbereiche suchen. Hier können Besucher **Bodenbeläge, dekorative Kies und Splitt, Natursteine, Monolithe, Mauern, Verkleidungen, Becken, Pools und Wasserspiele** aus nächster Nähe entdecken, eingebettet in reale und inspirierende Gestaltungssituationen.

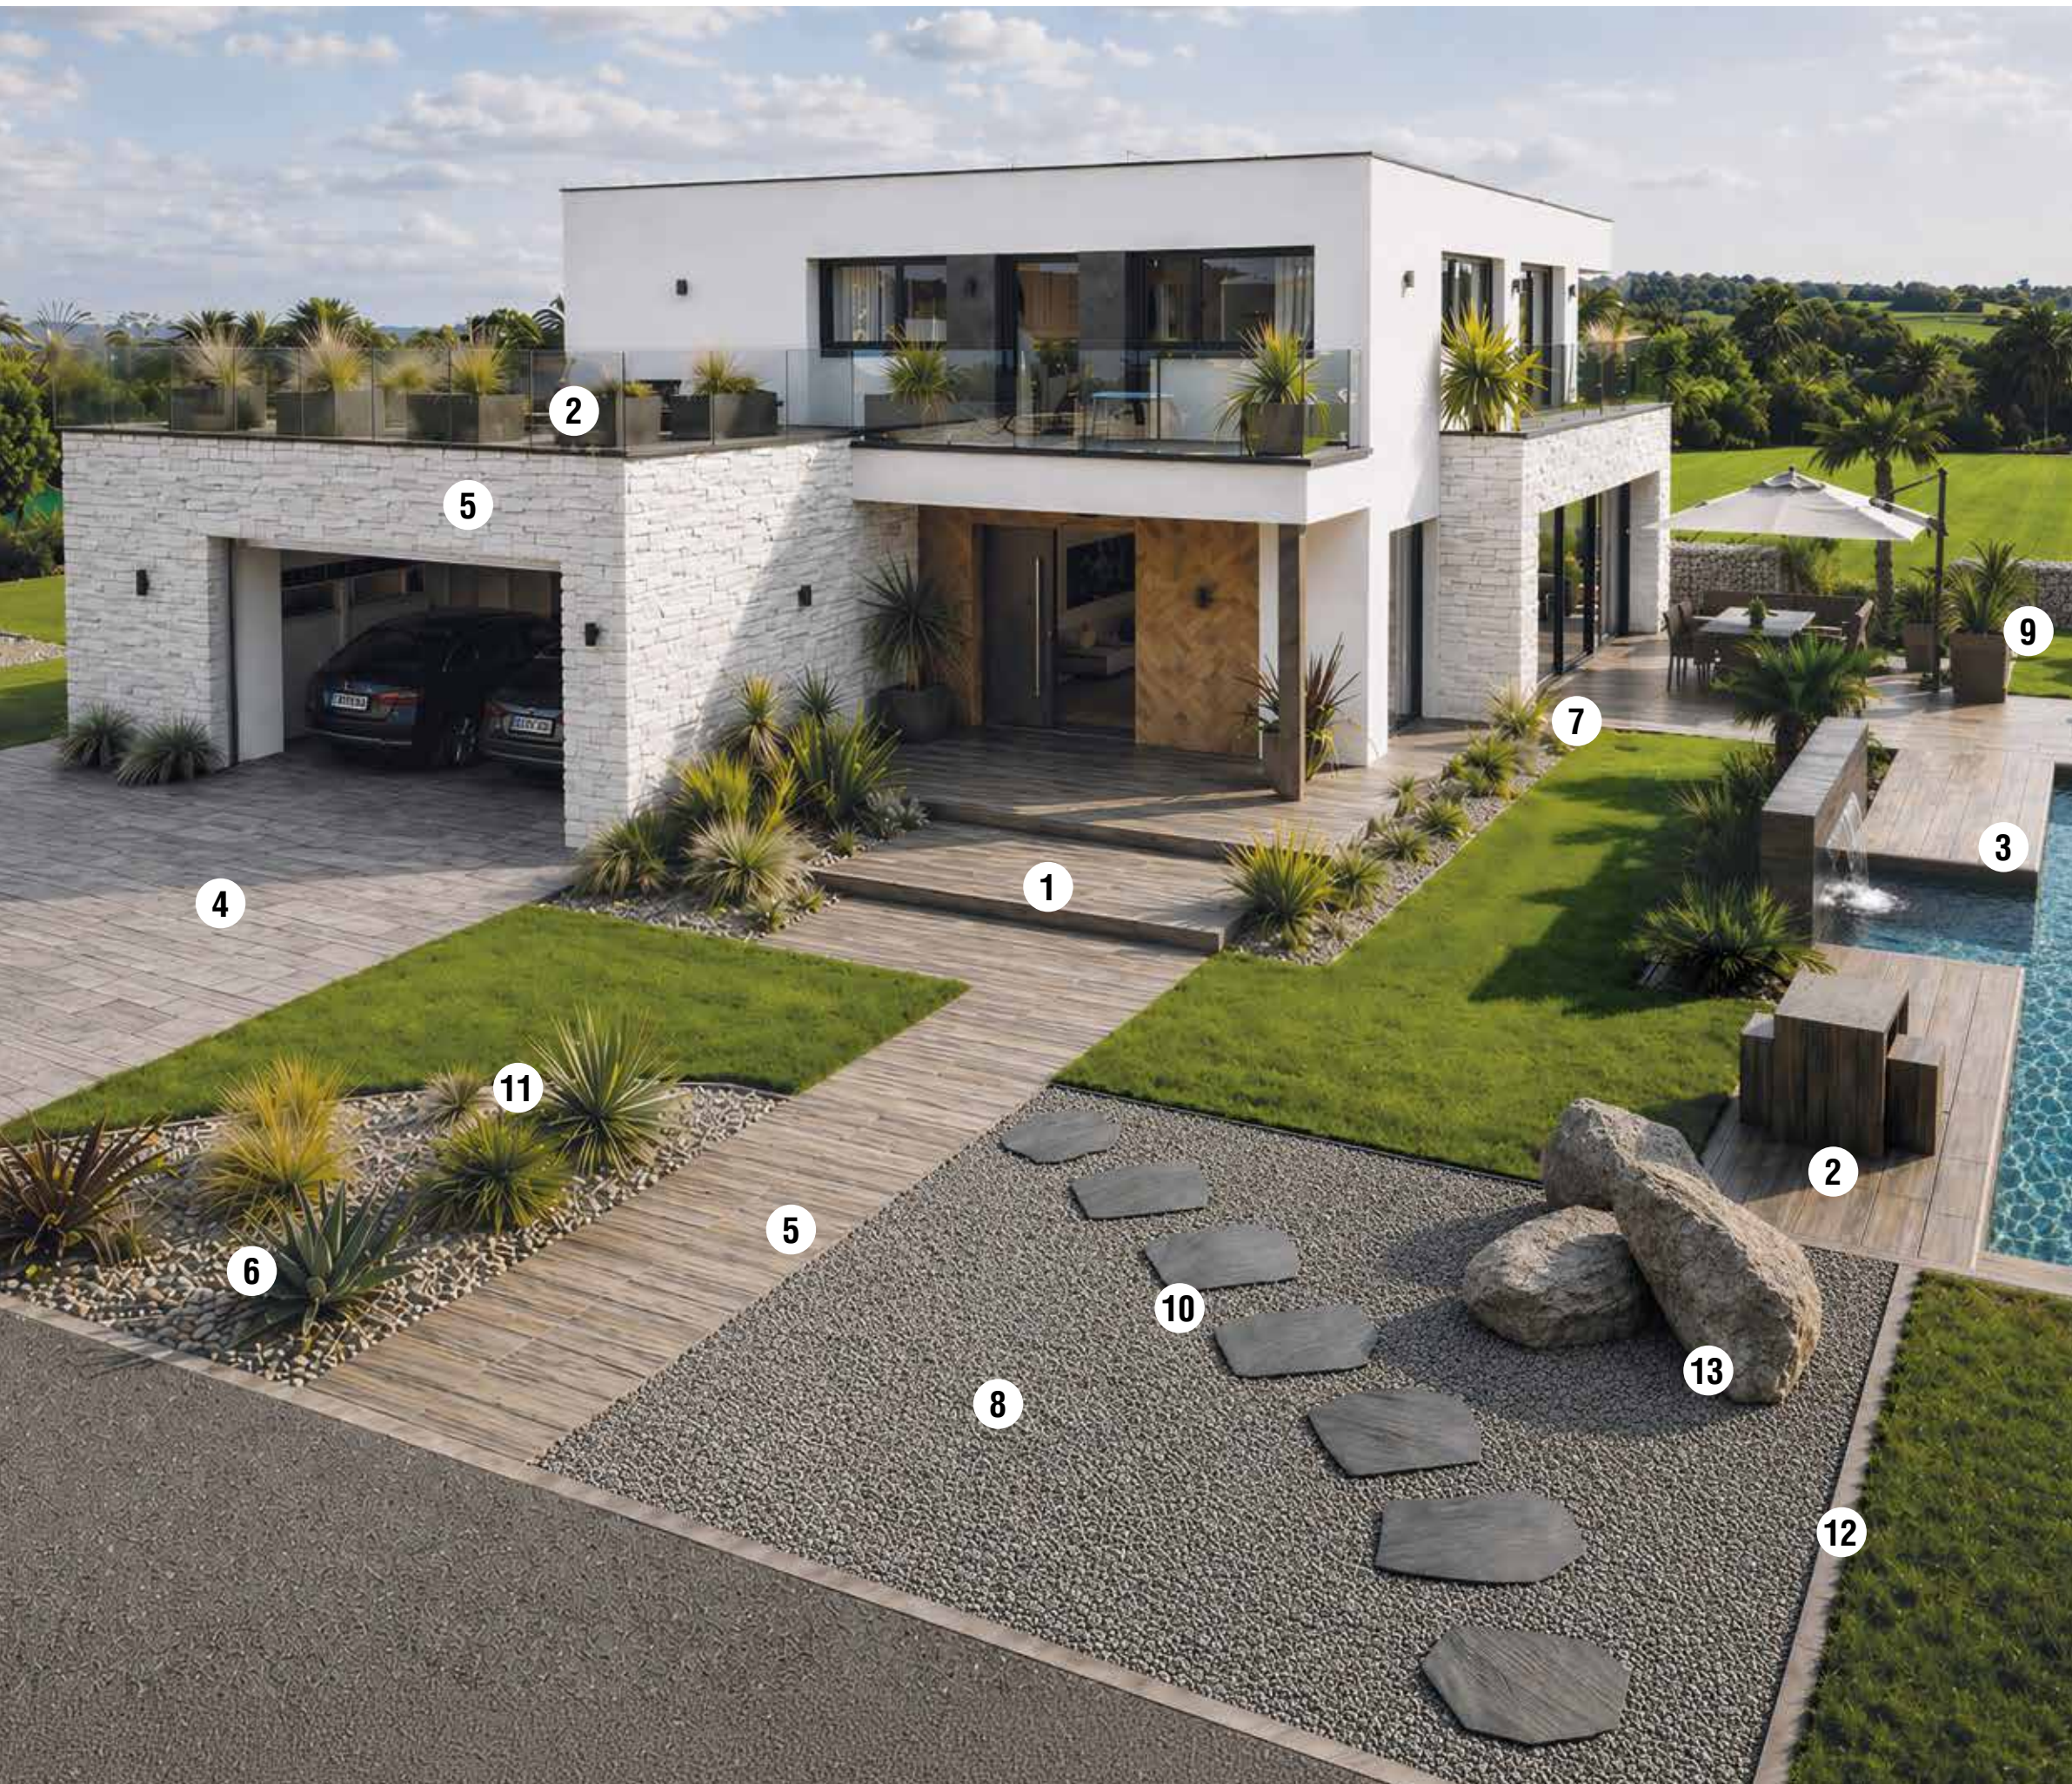

Der Rundgang umfasst Themenbereiche wie Museumsbergwerk, Griechisches Theater, 3D-Monolithbecken, Drei Pools, Panoramaweg und Wasserspiele, die Naturstein in all seinen gestalterischen Möglichkeiten erlebbar machen.

Visiter **Stone City**, c'est entrer dans un laboratoire à ciel ouvert dédié à la pierre naturelle, conçu pour les architectes, paysagistes et professionnels à la recherche d'idées pour des espaces extérieurs élégants, résistants et authentiques.

Ici, les visiteurs peuvent découvrir de près des **pavages, galets et graviers décoratifs, pierres naturelles, monolithes, murets, revêtements, bassins, piscines et jeux d'eau**, intégrés dans des mises en situation réelles et inspirantes.

Le parcours comprend des **espaces thématiques** tels que la Mine Musée, le Théâtre Grec, le Bassin des Monolithes 3D, les Trois Piscines, la Promenade Panoramique et les Jeux d'Eau, afin de révéler toutes les possibilités de conception offertes par la pierre naturelle.

UN NUOVO SISTEMA DI POSA A NEW INSTALLATION SYSTEM DAS NEUE VERLEGESYSTEM UN NOUVEAU SYSTÈME DE POSE

FAST BASE, innovativo sistema di posa a secco, che permette di ottenere una pavimentazione pedonale evitando la creazione del sottofondo tradizionale. Tutto questo garantisce una riduzione considerevole dei tempi di lavorazione e di materiale, trasformando un'attività realizzabile solo da professionisti del settore ad una eseguibile da tutti.

FAST BASE: Ein innovatives Trockenverlegesystem, das die Erstellung von Fußgängerböden ermöglicht, ohne dass ein herkömmlicher Untergrund erforderlich ist. Dies garantiert eine erhebliche Reduzierung von Arbeitszeit und Materialaufwand und verwandelt eine Tätigkeit, die bisher Fachleuten vorbehalten war, in eine Lösung für jedermann.

FAST BASE: An innovative dry-laying system that allows for the creation of pedestrian flooring without the need for a traditional sub-base. This ensures a significant reduction in processing time and materials, transforming a task once reserved for industry professionals into one that anyone can perform.

FAST BASE : Un système innovant de pose à sec qui permet de réaliser un revêtement de sol piétonnier en évitant la création d'une sous-couche traditionnelle. Tout cela garantit une réduction considérable des temps de pose et de matériel, transformant une activité autrefois réservée aux professionnels du secteur en une solution accessible à tous.

EASIHOLD

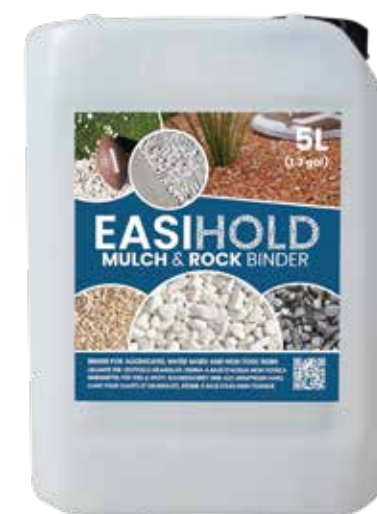

**LEGANTE PER CIOTTOLI E GRANULATI
BINDER FOR PEBBLES AND GRAVELS
BINDEMittel FÜR KIES UND SPLITT
LIANT POUR GRAVIERS ET GALETS**

Easihold, legante a base d'acqua ecologico e drenante facilissimo da usare, permette di mantenere ordinata la pacciamatura minerale risaltando i colori degli inerti.

Easihold: ein umweltfreundliches, wasserbasiertes und wasserdurchlässiges Bindemittel, das extrem einfach anzuwenden ist. Es sorgt für eine ordentliche mineralische Mulchschicht und bringt die Farben der Körnung voll zur Geltung.

Easihold: an eco-friendly, water-based, and permeable binder that is incredibly easy to use. It keeps mineral mulch tidy while enhancing the natural colors of the aggregates.

Easihold : un liant écologique à base d'eau et drainant, extrêmement facile à utiliser. Il permet de maintenir le paillage minéral en ordre tout en sublimant les couleurs des agrégats.

GRAVELFIX

STABILIZZATORE PER GHIAIA GRAVEL STABILISER KIESSTABILISIERUNG STABILISATEUR DE GRAVIER

Soluzione ideale per stabilizzare granulati, creando una pavimentazione elegante, drenante e durevole nel tempo. Grazie alla particolare struttura a nido d'ape si crea una superficie pedonabile e carrabile che elimina le problematiche tipiche dello spostamento di ghiaia.

Ideal solution for stabilizing gravel, creating an elegant, permeable, and long-lasting pavement. Thanks to its unique honeycomb structure, it provides a stable surface for pedestrians and vehicles, eliminating the typical issues of shifting gravel.

Die ideale Lösung zur Stabilisierung von Splitt und Kies für elegante, wasserdurchlässige und langlebige Bodenbeläge. Dank der speziellen Wabenstruktur entsteht eine begehbare und befahrbare Oberfläche, die das typische Verschieben von losem Kies verhindert.

La solution idéale pour stabiliser les graviers, créant un revêtement élégant, drainant et durable. Grâce à sa structure en nid d'abeille particulière, elle permet de réaliser une surface carrossable et piétonne qui élimine les problèmes typiques de déplacement des granulats.
